Schleck Gran Fondo

After the end of his long and successful career as a professional cyclist, our celebrated fellow Frank Schleck now gives all the enthusiasts of the sport on two wheels to travel with him along his favorite training routes. Thus it makes us discover the beautiful eastern region of our beautiful country with the beautiful valley of the Moselle or even the wonderful region of Mullerthal.

The Luxembourg edition of the bike marathon "Gran Fondo" presents all the essential characteristics to satisfy the most fervent cyclists: differences of 2,400 m and a total distance of 162 km require the participants to have above all endurance. Moreover, those who believe they do not have enough can choose a second circuit not less interesting totaling 89.5 km.

The "Gran Fondo" have their origin in Italy and are currently played throughout Central / Southern Europe (Italy, Spain, Portugal, Greece, Austria, France ...). Frank Schleck has taken the laudable initiative of organizing such a high-end sporting event in the Grand Duchy and more particularly with starting and finishing points Mondorf-les-Bains, his hometown and residence.

In my capacity as Deputy Mayor of the municipality of Mondorf-les-Bains, I would like to thank this exceptional sportsman for remaining faithful to his roots and for involving the world and all other interested parties in his new sports project.

I hope that the "Schleck Gran Fondo" will find a permanent place in the annual calendar of events of our municipality and I wish Frank, his organizing team and all participants and spectators an unforgettable cycling day.

Lex **DELLES**

Deputy mayor of the town of Mondorf-les-Bains

Cycling, a Luxembourgish passion

As part of the International cyclist Union's Gran Fondo World Series, this race showcases Fränk Schleck's favorite training routes. The Gran Fondo World Series is a very popular international cycling event which attracts thousands of spectators. At the same time, the « Schleck Gran Fondo » highlights Luxembourg's passion for cycling.

Sporting events are indeed a reason for people to travel. This major race enables cyclists, their entourage and cycling enthusiasts from all over Europe to follow this exciting competition and at the same time gives them the opportunity to discover the regional tourist attractions.

The race takes place in the Moselle region, situated less than 20 km from the Luxembourgish capital, and famous for its wine culture. Tucked away between its French and German neighbours, the Moselle managed to maintain its very own style and unique character; it is internationally known for the Treaty of Schengen, the agreement signed in 1985 which shaped the history of Europe.

I have no doubt that the first edition of the Schleck Gran Fondo will be a success and I wish the spectators and the participants an exciting cycling race.

Francine **CLOSER**

Secretary of State for the Economy

As of 20 May 2017 takes place the first Gran Fondo Schleck. Hundreds of cyclists, whether Luxembourgers or foreigners, licensed or non-licensed meet Mondorf-les-Bains to cross the most beautiful villages of our Moselle and beyond.

Frank and his team have traced a very demanding course, not surprising given that it is he who for 15 years has shone as a climber in the most prestigious cycling races. I am sure that this event, which is classified in our calendar as a cyclo-sporting card, will attract all those who want to know their limits, without taking a license and being at the start of our races. In the hope that these mass events, which are increasingly numerous, will convince more than one of them to integrate one of our cycling clubs and enjoy the obvious advantages, I wish a great success to this initiative.

In this year of the 100th anniversary of the Luxembourgish Cycling Federation, the Schleck gran fondo will be one of the important organizations that will enhance the cycling year 2017.

Another highlight: barely 6 weeks later, Mondorf-les Bains, stronghold of the Schleck family, will host the start of the 4th stage of the Tour de France 2017.

A big thank you to the volunteers who supervise and ensure the smooth running of the first Schleck gran fondo.

Camille **DAHM**
President of the FSCL

X-Perience the passion of cycling

A Gran Fondo is meant for a wide range of cyclists with different goals and reasons for attending. After 13 years as a professional bike rider, I'm still in love with this sport and I want to share this passion with everyone and make them feel the same way about cycling as I do. I believe in sports, in its power and positive effect on our quality of life.

The Schleck Gran Fondo appeals to those looking for a ride for fun, for good health and to take a personal challenge, all while enjoying the beautiful scenery of the course. My training region has phenomenal and compelling features that make it ideal for road cycling. Significant road investments combined with the scenery makes Luxembourg a perfect destination for cycling.

We are dedicated to produce a quality road-cycling event for the whole family. As a father of 2 little girls, I know how important it is, that our kids are active independent and mobile. They should all be able to ride their bike in a safe manner to school and get the feeling for cycling. This is why besides the race and event expo village, the Schleck Gran Fondo is offering workshops, obstacle courses and a Pumptrack where the kids can enjoy their day!

Have fun & ride hard!

UCI GRAN FONDO WORLD SERIES

One of the many benefits in taking part in the Schleck Gran Fondo is the opportunity to qualify for the UCI Gran Fondo World Championships. In 2017, this event will be held in Albi, France.

The Schleck Gran Fondo is one the 19 events staged around the world in which you can qualify for the Championships. In order to qualify for this unique event, you must finish in the top 25% of your Age Categorie.

The men in categories H1,2,3,4,5,6, have to qualify on the long course of 162 km. All women categories as well as H7,8,9 have to qualify on the short course of 89,5 km.

Each participant finishing in the top 25% will receive a UCI medal. Should you qualify for your Age Categorie at the event, you can come and collect your UCI medal. The age group winners of the UCI Gran Fondo World Championships are awarded the UCI rainbow jersey.

The 24 Lions Clubs of the Grand-Duchy of Luxembourg, are highly motivated and proud to helping, as volunteers, Frank Schleck and his organization team for the UCI cycling race Schleck Gran Fondo.

In the framework of the "SightFirst program" of Lions Clubs International, our members aim at supporting the Lions activity "cornea donation". Removing the cornea is being performed at "Hôpitaux Robert Schuman" in Luxembourg. After removal the cornea is transported securely to the cornea bank at Homburg University Hospital, where under local or full anaesthetic the diseased part of the recipient's cornea is replaced with healthy tissue. Thanks to the transplant many blind or partially-sighted people have had their sight fully restored. On behalf of the receipts of a raffle on the Lions exhibition stand inside the sponsors's village with brand new bicycles provided by Lions Luxembourg as prizes, Lions will sponsor an electronic control module of the temperatures of the refrigerators for the storage of cornea at Hôpitaux Robert Schuman".

Lions will also participate to the Schleck Gran Fondo riding a "Lions"-tandem, gently provided by "Fondation Lëtzebuerger Blannevereenegung", with a blind person, raising the awareness of the public to the needs of blind or partially-sighted people.

In 2017, Lions Luxembourg is celebrating its 50th anniversary and Lions Clubs International its 100th.
